■ THE HANOVER ■ INDUSTRY

CREATING VALUE TOGETHER

Today, The Hanover is better positioned to succeed than at any time in its 160-year history.

The Hanover has established strong growth momentum with many of the best agents and brokers in the country, and its value proposition has resonated among this elite group. The Hanover's distribution strategy is unique because it markets products and

services through a selective number of independent agents and brokers who are committed to investing in their businesses and growing.

The company limits access to its most innovative and specialized products to these partners, offering meaningful franchise value to them.

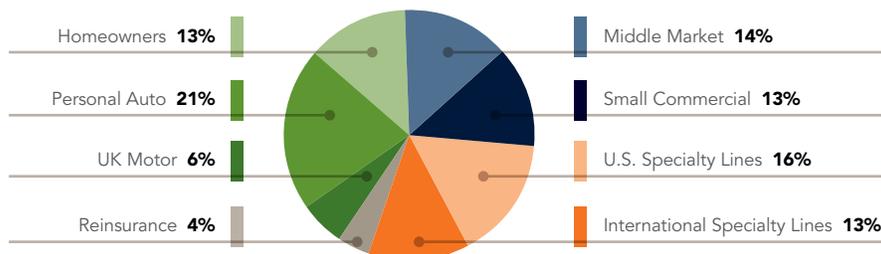

The Hanover also put experienced professionals in

the field to work closely with partners and, together, they capitalize on new growth opportunities. The company's field teams are delivering value to partners every day, analyzing books of business, identifying opportunities, and helping develop business plans that drive win-win results.

At the same time, The Hanover offers a broad and specialized product mix that enables it to take a value-oriented approach. The Hanover has created distinctiveness in each of its businesses, which allows it to target more specialized accounts and help agents to compete in their local markets.
