

▶ Hanover Risk Solutions—partners in safety

At The Hanover, our Risk Solutions experts are on hand to help businesses mitigate risk with a broad range of solutions. And we know that sometimes, businessowners need a solution that doesn't come from an insurance company.

To cover that gap, we've negotiated with an array of providers to help address safety and security needs at low or no-cost.

Our Risk Solutions Partner program has allied with a national provider of online training to help our insureds provide safety training to new employees and provide refreshers for those who've been on the job for awhile. The **Hanover Worker Safety Advantage**, provides training free to our valued Hanover policyholders.

Hanover Worker Safety Advantage

Hiring new workers may seem like the difficult part of staffing up, but training them to be safe on the job can be overwhelming. Business owners may need training for forklift operators or drivers, materials handlers or office staff. Finding effective safety training on a wide variety of subjects for different employees when it's needed can help speed the process and help keep workers off the disabled list.

We've assembled a collection of courses to address some of the most common training needs. These online courses help business owners address those training needs cost-effectively, and at times convenient for employees and employers alike.
