

▶ Hanover Risk Solutions—Partners in Safety

At The Hanover, our Risk Solutions experts are on hand to help businesses mitigate risk with a broad range of solutions. And we know that sometimes, business owners need a solution that doesn't come from an insurance company.

To cover that gap, we've negotiated with an array of providers to help address safety and security needs at low or no-cost, and sometimes, reduce deductibles in the process.

Our Risk Solutions Partner program has allied with a national provider of online training to help address the driver safety training needs of businesses. The **Hanover Driver Safety Advantage Program** provides free* driver training courses to our valued Hanover policyholders.

*Some limitations apply.

Hanover Driver Safety Advantage

According to the U.S. Department of Transportation, motor vehicle accidents cost employers \$60 billion annually. The average accident costs an employer nearly \$17,000. When there is an injury, costs can often exceed \$500,000.

At The Hanover, we understand that a good fleet safety program will save lives and reduce the risk of life-altering injuries. It also helps protect an organization's human and financial resources and guards against potential company liabilities associated with accidents involving employees driving on company business.

The Hanover Driver Safety Advantage program can help address the most common causes of accidents, invite employees to train and keep track of their progress, all at a pace that suits employees' schedules.
