

## ▶ Hanover Risk Solutions—Partners in Safety

At The Hanover, our Risk Solutions experts are on hand to help businesses mitigate risk with a broad range of solutions. And we know that sometimes, business owners need a solution that doesn't come from an insurance company.

To cover that gap, we've negotiated with an array of providers to help address safety and security needs at low or no-cost, and sometimes, reduce deductibles in the process.

Our Risk Solutions Partner, **Videofied Wireless Video Alarm Security**, provides discounts on the installation of certain Videofied Intrusion Alarm systems to our valued Hanover policyholders.

### Videofied Wireless Video Alarm Security

Hanover policyholders already have superior insurance coverage but burglary, theft and vandalism could still cause inventory and equipment losses, plus disruption to business operations, lost work hours and missed contract deadlines.

When the Videofied system is activated, a video clip is sent to a central station operator who can immediately see what activated the alarm. If the alarm was triggered by an active intrusion, law enforcement is contacted with an "in-progress" alarm. This not only lowers the potential for false alarms but it also increases the response time by law enforcement to business locations.

Videofied systems are designed for just about any business—from commercial businesses to educational and financial institutions to healthcare and government facilities.
